

Regional Partnerships for Climate Change Adaptation and Preparedness

Description

[PDF version](#) or type unknown

Project Status	Completed
Start Date	Tuesday, March 19, 2024
End Date	Tuesday, March 19, 2024
Project Type	Capacity Building
Total Funding	1000000
Project Scope	Regional
Project Objectives	The outcome is expected to be a strengthened information system that will support informed decision-making aimed at minimizing the negative social and environmental impacts of catastrophic events. It will also mitigate the financial risk of participating Pacific developing member countries to the effects of natural disasters, including those exacerbated by human-induced climate change . This work is linked to the World Bank 's work on the development of a Caribbean Catastrophe Insurance Facility for the Pacific.
Project Outputs	1) Eight national GIS (geographic information system) encompassing hazard and vulnerability data

Implementing Countries

Cook Islands
Papua New Guinea
Solomon Islands
Tonga
Tuvalu
Vanuatu

Implementing Organisation(s)

Asian Development Bank

Development Partner Contacts

Allison Woodruff
