

## Annotated Agenda 2015

### Pacific Climate Change Roundtable, Apia, Samoa

Tanoa Tusitala Hotel, 12-14 May 2015

## LESSONS LEARNT FROM TEN YEARS OF PIFACC IMPLEMENTATION

The Pacific Islands Framework Action on Climate Change (2006-2015) is the regional climate change policy endorsed by the Pacific Leaders in 2005. The Framework's vision is "Pacific island people, their livelihoods and the environment are resilient to the risks and impacts of climate change". The 2015 Pacific Climate Change Roundtable (PCCR) will provide participants with the opportunity to share 'lessons learnt' as well as what is 'new and unique' to ensure the region's smooth transition to the new integrated strategy - Strategy for Climate and Disaster Resilient Development in the Pacific (SRDP) and its implementation.

### Objectives:

The 2015 PCCR has two objectives:

- (1) to share lessons learnt in the context of PIFACC implementation and to facilitate discussions on enhancing integrated climate change and disaster risk management policies, programmes, projects and actions in the Pacific Region; and
- (2) to facilitate discussions and promote awareness and understanding of the new Strategy for Climate and Disaster Resilient Development in the Pacific (SRDP) and its Pacific Resilience Partnership (PRP) as well as PCCR transition to this new arrangement.

### Outcomes:

1. Sharing of lessons learnt from the past ten years of PIFACC, thus a greater sense of awareness of both regional and national climate change activities.
2. Awareness of processes and tools used in successful adaptation and mitigation projects and how to be replicated in new activities.
3. Clear understanding of the new Strategy for Climate and Disaster Resilient Development in the Pacific (SRDP) and its Pacific Resilience Partnership (PRP).
4. Clear understanding of how PCCR and or its Working Groups transition to the SRDP Pacific Resilience Partnership.
5. Awareness and understanding of new initiatives and opportunities to build capacity and to access climate change finances and other resources.
