

Climate Public Expenditures and Institutional Reviews (CPEIRs): What have we learnt?

Pacific Climate Change Roundtable, Climate Change Financing: Session 6

July 4th, 2013, Nadi, Fiji

**Mr. Kevin Petrini, Regional Climate Policy Specialist,
UNDP Pacific Center kevin.petrini@undp.org**

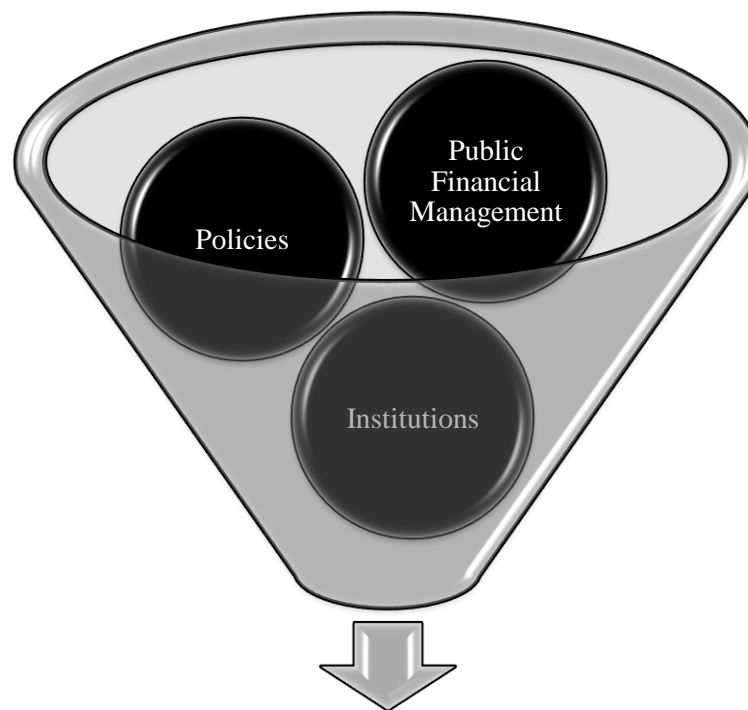

United Nations Development Programme

Climate Public Expenditure and Institutional Review (CPEIR) – What have we learnt?

1. What is a CPEIR?
2. What have we learned?

What is a CPEIR? (1.1)

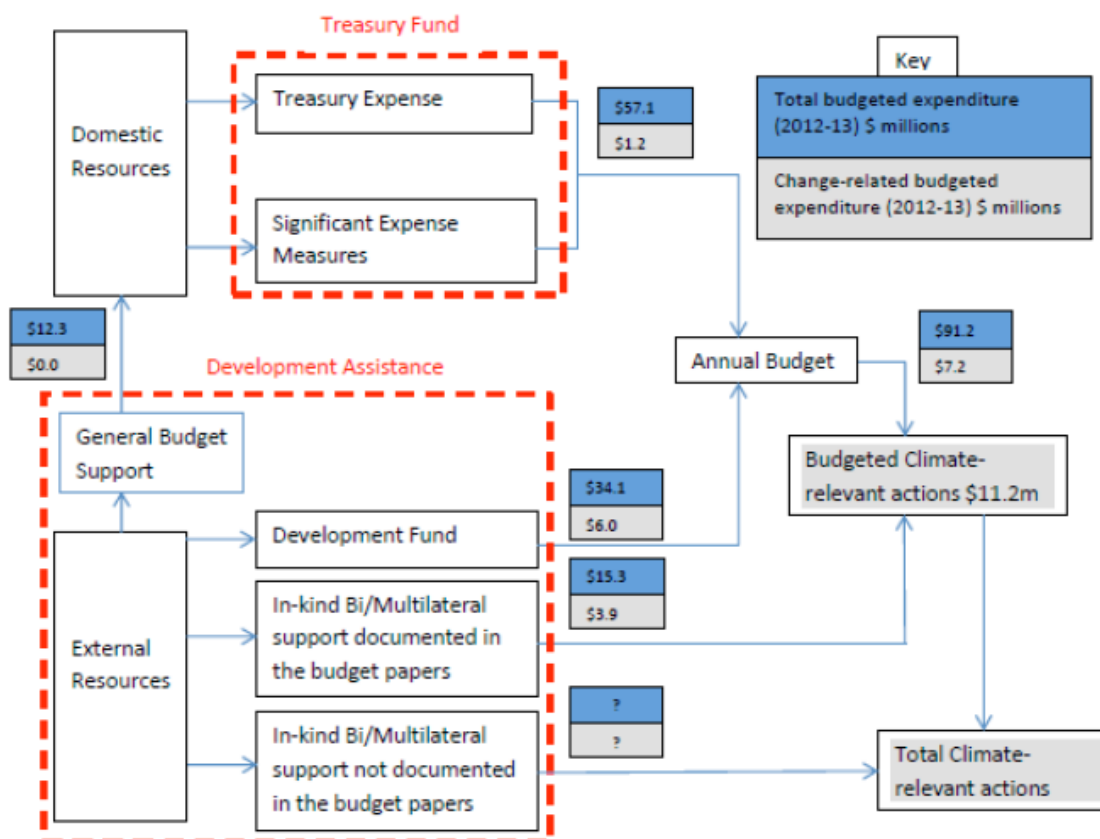

CPEIR Readiness Plan

What is a CPEIR? (1.2)

Figure 4 Management of Funds in the GoN Budget

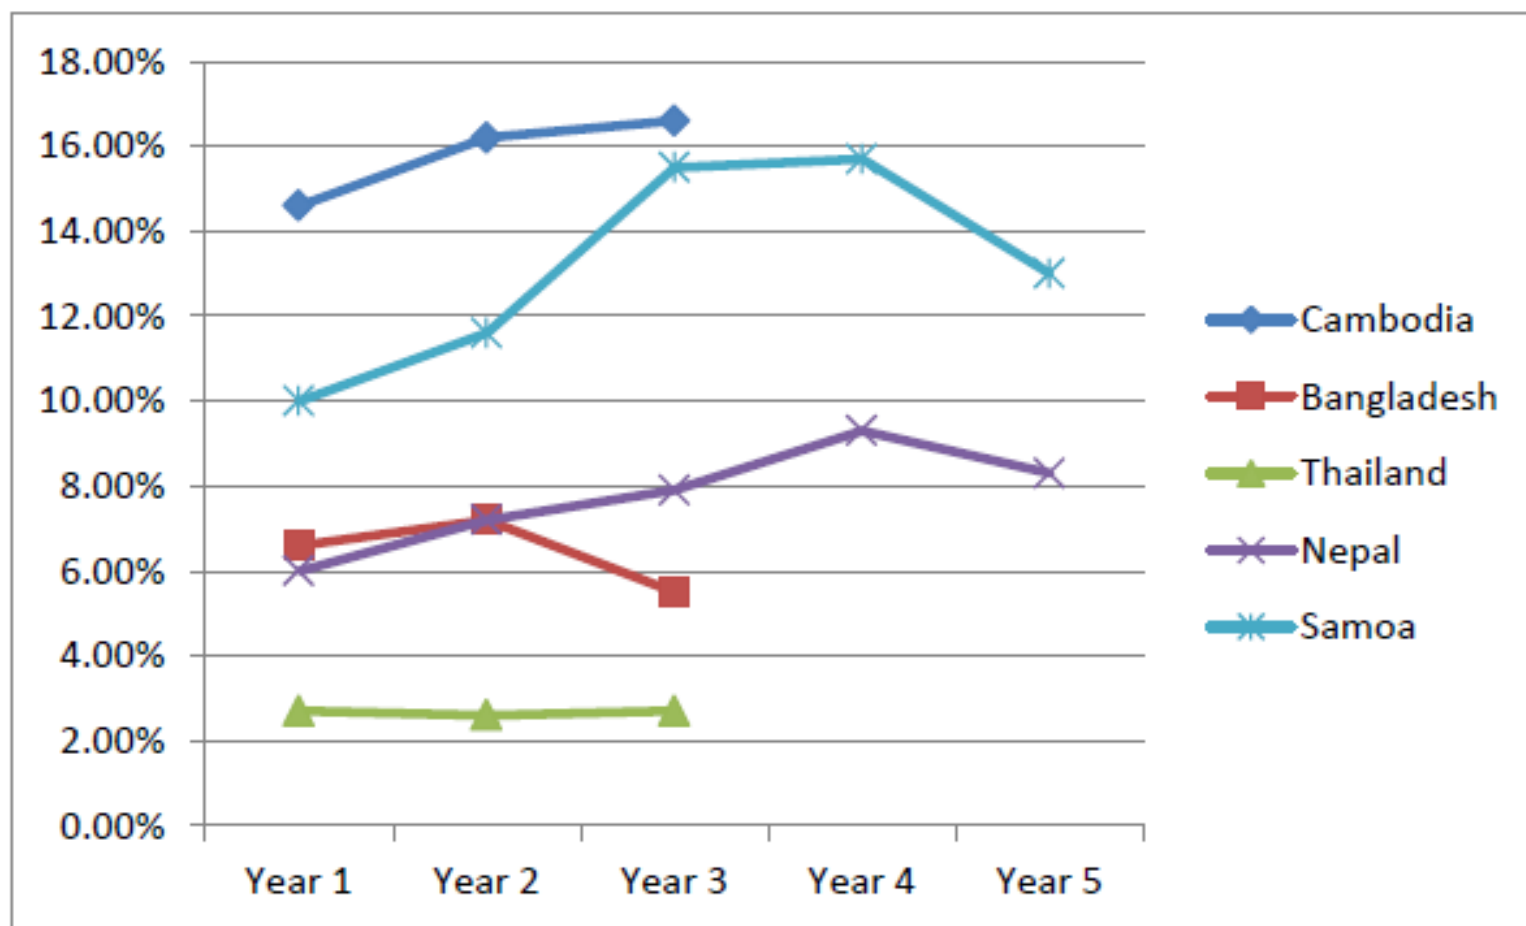

*Excerpted from Pacific Climate Change Finance Assessment, Nauru Case Study

What is a CPEIR? (1.3)

Figure 5: Changes in the proportion of total expenditure that is climate relevant over time

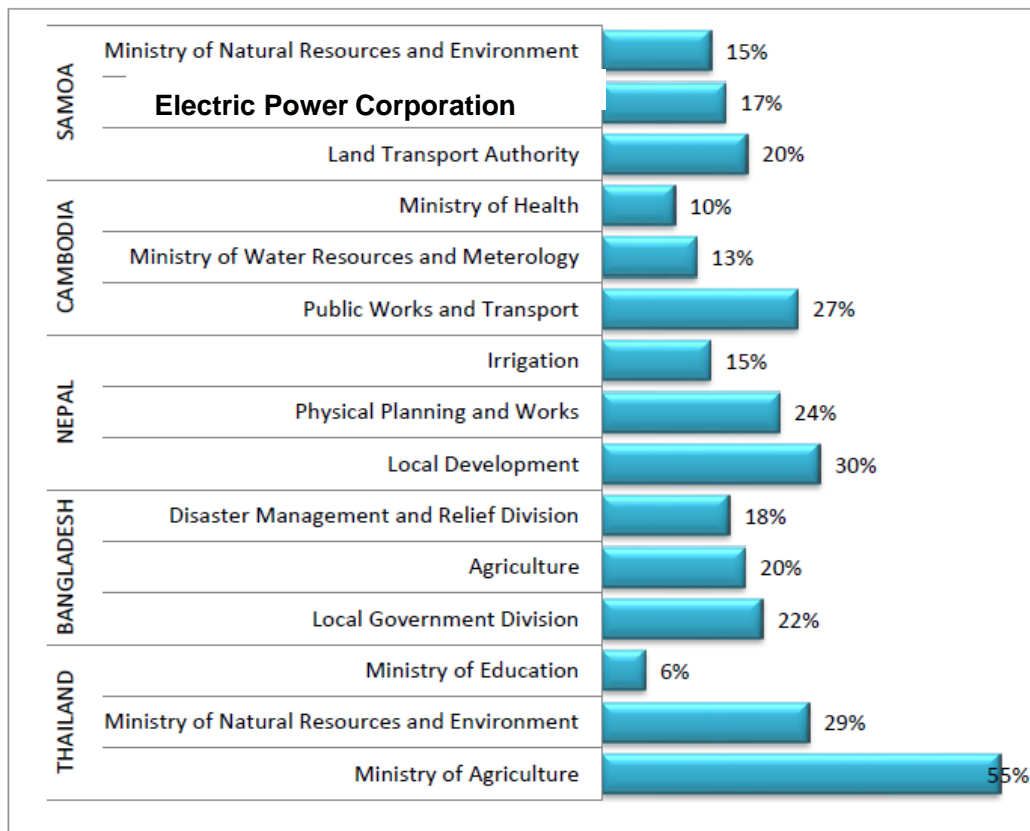

What is a CPEIR? (1.4)

CPEIR – Institutional Findings

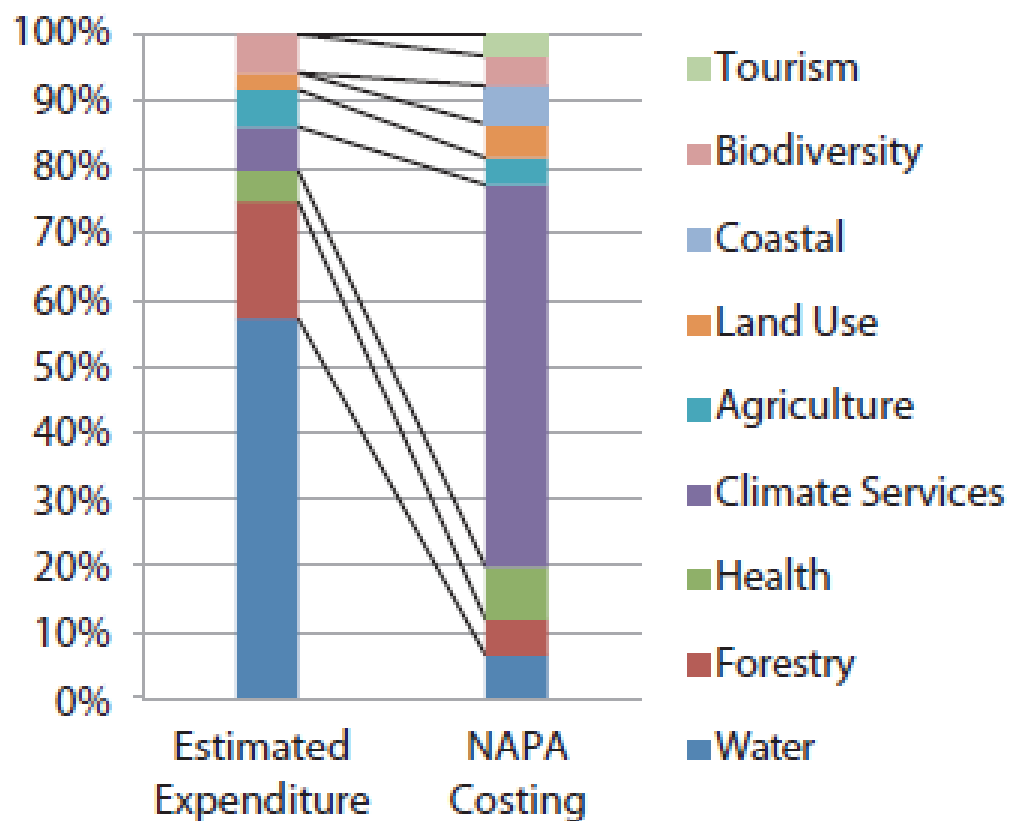

Figure 3: Highest climate relevant spending agencies as proportion of total 'climate budget'⁴

What is a CPEIR? (1.5)

High Relevance Expenditure Only

*Excerpted from Samoa CPEIR

CPEIR Key Recommendations (2.1)

- Climate change is an environment concern as well as a social and economic concern
- Planning and Finance have a key role in facilitating the incorporation of CC concerns into policy development and public investment planning
- Need for prioritization and financing plan
- Build upon existing government reform programmes

CPEIR Key Recommendations (2.2)

- Annual Monitoring Report
- Finding efficiencies with overlap of CCA and DRM institutional structures
- Capacity development for policy appraisal, monitoring and evaluation (functional capacities)
- More awareness of climate change at the local level

CPEIR Key Recommendations (2.3)

- Parliamentary committees have a potential role for oversight.
- Build upon existing planning and allocation systems
- Incorporate a functional marker to track expenditure
- Introduce indicators to measure quality of climate relevant expenditure

CPEIR Key Recommendations (2.4)

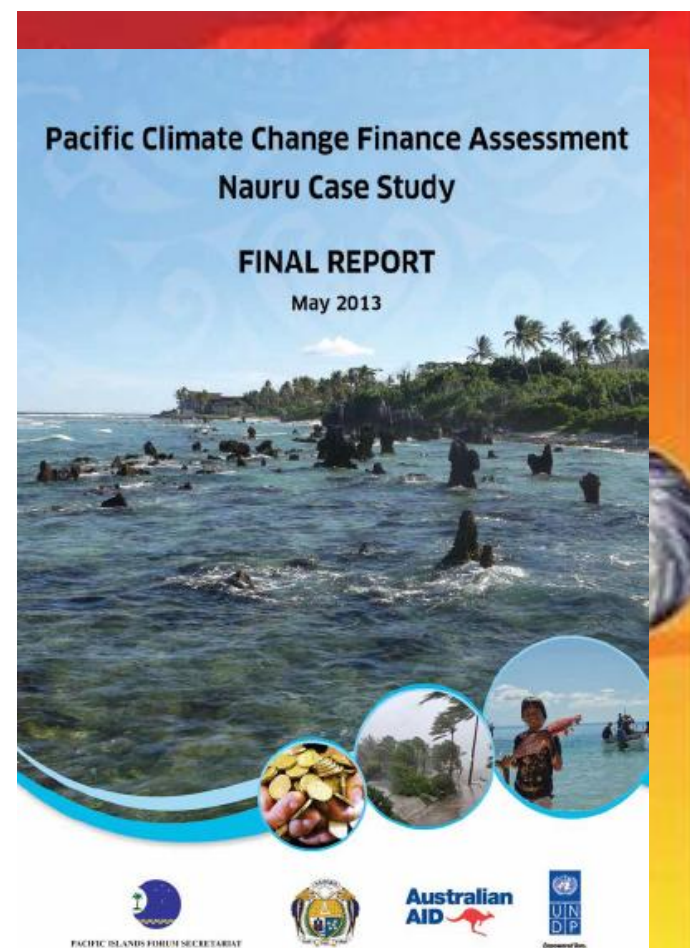

- Go beyond climate change relevance of all expenditures to climate change but the policy objective
- Look at the overall composition of public expenditure including taxation
- Focus on “dirty” expenditure
